NEWTECH™ MEDICAL DEVICES

From Indigenous Ideas to Newtech Solutions

ClearNeedle

Disposable Core Biopsy Needle

Echogenic Tip
Each needle has an echogenic tip for accurate placement under ultrasound guidance

Marking
Centimeter markings provide reference for accurate depth placement

Notch
19mm sample notch ensures sufficient tissue for clinical diagnosis

** Sampling Available, No need to check availability of highly moving products, Easy Available.

Newtech Medical Devices Pvt. Ltd.

We develop, manufacture, market and support cutting edge vascular access devices and accessories to meet the clinical needs of the medical industry, particularly in the field of interventional cardiology and dialysis. Our company's engineering and applications expertise provides superior products whose progressive designs accommodate advances in medical device and whose quality anticipates the requirements of our professional clients and the patients they serve.

Currently one of the largest manufacturer, exporter & importer in the field of Cardiology, Nephrology, Urology & Surgical Disposables in INDIA.

Disposable Core Biopsy Needle

Newtech Medical Devices offers ClearNeedle Biopsy Needle with very sharp cannula for a safe and painless percutaneous insertion and penetration. Its compact, lightweight design can help to reduce tissue shear. It also provides a clear path to work through when performing multiple biopsies in the same area. Echogenic markings on cannula allow for precise ultrasound placement and centimeter depth markings assist in needle placement. Standard sizes are available.

Per Box

BIOPSY NEEDLE 50 Pcs

Document No: NTM/BR/01
Revision No - 00

Disposable Core Biopsy Instrument

Newtech Medical Devices offers ClearGun. It is versatile, easy to use and reliable, with unique rapid firing or two-stage firing feature, it represents the state of the art in automatic biopsy instruments. It can be easily operated with one hand making it ideal for procedures requiring ultrasound guidance. Color coding promotes accurate needle gauge identification & centimeter marking on the cannula helps the professionals to estimate the distance penetrated.
